

Tami Socks
(Size U.S. 7.5)

Yarn is "Online" Supersocke "New Wave" - color way
Needle size 1

(I used all methods 5 dpn's, 4 dpn's, 9" circ, 2-16" addi turbo and 1-60" addi turbo)

Gauge 8 sts. per inch & 10 rows per inch

On a larger needle size 4 cast on 60 sts "German Twisted Cast On"*

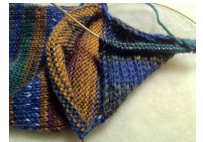

(You want loose & stretchy cast on.)

K2 P2 cuff 2.5"

Leg 3"

Heel 26 sts. (leaving 34 sts on hold) slip first st. k, slip across till it folds

(What you are looking for is for the little heel flap that folds over and forms a triangle. In the picture it still needs a couple more rows to complete the triangle.)

Turning the heel: Start on the purl side, half the sts plus one (14) p2tog, p1, turn slip 1, k3, k2 tog, k1, turn and continue in that manner until you run out of sts.

Heel triangle: pick up 15 sts in the slipped first loop on both sides

Knit one round including the held 34 sts.

Decrease rounds to for the little ankle triangle:

Decrease every other round, alternating k2tog & ssk leaving one stitch k.

First decrease round will be k to 3 sts before the end k2tog, k 35, ssk

(use a slip marker to mark the rounds) till you have 13 sts

Foot: 4 1/4" starts the toe

Toe: Decrease every other round in the second sts. same as the heel triangle.

When there are 12 sts left put on two needles you are ready to graft. But before grafting take the two end stitches and pull over the next st. (this is to prevent the dog ear effect at the toe.)
